PROBLEM AND USER

The release note is not the decision.

For Python maintainers reviewing a dependency upgrade

The alert

HTTPX 0.28.0 removed app=.

What does that mean for

this project's tests?

The missing evidence

Which code reaches the API?

What happens across versions?

Which claim remains uncertain?

WHY RIN MATTERS

Follow the impact path.

A bounded verdict with a receipt for every step

01 RELEASE

Pinned HTTPX changelog

>

02 USAGE

Starlette testclient.py:392

>

03 RUNTIME

PASS to TypeError

>

04 DECISION

REVIEW + blind spots

ARCHITECTURE

An agent that can explain why.

Nemotron proposes; deterministic evidence decides

INPUT

Release + source

Pinned snapshots

INVESTIGATE

Hypotheses + AST

Recorded differential

SPONSORS

Nemotron hypothesis

Zetaris + Meterless

OUTPUT

REVIEW / UNKNOWN

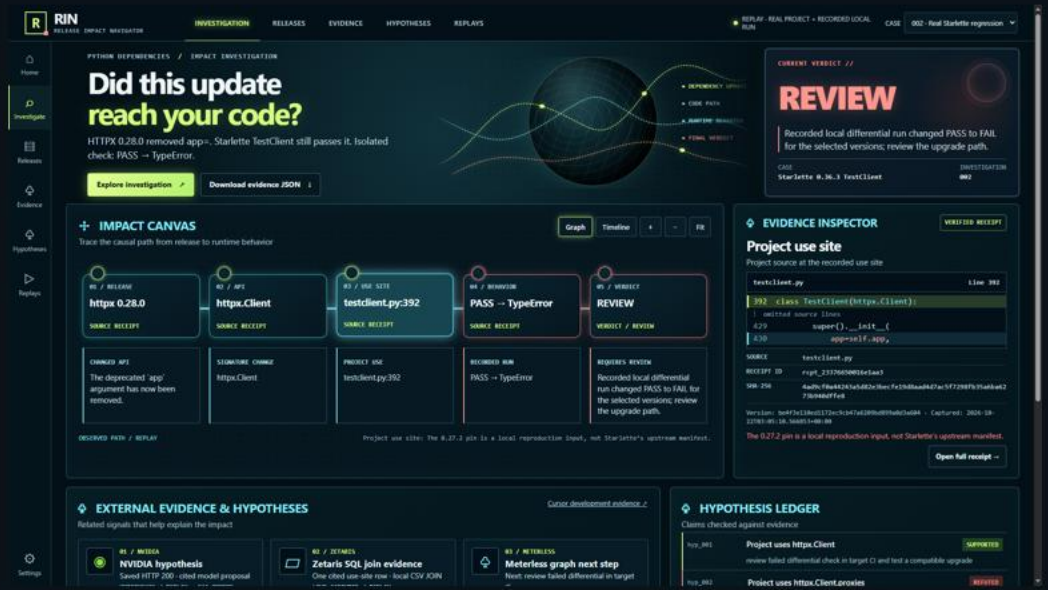

SHA-256 receipts

Registered local CSV JOIN verified; remote federation unverified. UI is REPLAY.

REAL INVESTIGATION

Starlette TestClient meets HTTPX 0.28.

Pinned public source; local reproduction pin, not an upstream lockfile

Observed

HTTPX 0.27.2: PASS

HTTPX 0.28.0: TypeError

6 verified receipts

Verdict: REVIEW

SPONSOR TECHNOLOGIES

Use each tool where it changes the work.

Current evidence and its exact boundary

ZETARIS

Two registered local CSVs: PASS

One receipt-cited JOIN row: PASS

Remote federation: UNVERIFIED

METERLESS + CURSOR

World Model write/read: PASS

Real-case next action: recorded

Cursor code task: owner-attested

EVIDENCE AND VALIDATION

Show the receipts. Keep the denominator.

Development checks are separate from the frozen benchmark

VERIFIED LOCALLY

30 tests pass; 0 fail

6 real-case receipts verify

Live JOIN + graph replay match

Canvas + 390px QA pass

DEVELOPMENT EVALUATION

2 REVIEW / 1 UNKNOWN

Forged NO_ACTION rejected

Tampered receipt rejected

Frozen benchmark: 0 / 12

LIMITATIONS AND NEXT STEPS

The release candidate still has gates.

No public repo, deployment or submission has been made

OPEN EVIDENCE

Remote heterogeneous federation

Nemotron: hypothesis only

Frozen benchmark app snapshots

BEFORE SUBMISSION

Narrated 110-second recording

Original Cursor Usage proof

Owner approval for publication
